

# ANIKET GUPTA

Enthusiastic about uncovering cutting-edge technologies and their transformative impact on industries.

## PROFILE :

Dynamic BSc IT student with expertise in C++ (OOPS), SQL, and Python. Proficient in Canva design, Microsoft Excel, PowerPoint, and database management systems. Passionate about continuous learning and applying knowledge practically. Thrives in environments valuing daily learning and invests time in meaningful activities. Committed to delivering excellence in every task. Seeking internship opportunities to hone skills and contribute significantly across diverse fields of Information Technology.

## PROJECTS :

### Personal Portfolio — A Responsive Showcase

I created a responsive personal portfolio using HTML, CSS, and JavaScript, leveraging YouTube tutorials. This project showcases my web development skills and includes my projects, skills, and contact information.

See Project [here](#)

### BudgetBuddy — The Finance Tracker

Developed a finance tracker app with Streamlit, allowing users to manage transactions and view detailed income and expense summaries with interactive charts using Matplotlib.

See Project [here](#)

### Berger Hut — E-commerce Platform

Developed an e-commerce platform featuring product browsing, shopping cart management, order tracking, and secure user accounts. Implemented product search and filtering, along with secure payment gateways to ensure a seamless shopping experience. Focused on user experience, security, scalability, and performance using HTML, CSS, and JavaScript for front-end development.

See Project [here](#)

### Weather App — check the current weather conditions

The Weather App is a simple and intuitive web application that allows users to check the current weather conditions for a specified location.
